How to Make Lager Beer - Brew a Lager Beer at Home](#) I am brewing "The Sun Has Left Us on Time" Steam Beer from Charlie Papazian's book *The Joy of Homebrewing* Vol. 3. In the description it says that it is a beer traditionally made with lager yeast and brewed at ale temperatures. I used American lager yeast that fermented best at 48-58 degrees and fermented (primary) at about 50-54 degrees. The recipe then says to "lager" the beer at 50 degrees.

[How to Brew Beer: The Ultimate Step-by-Step Guide](#) Brewing beer has been said to be part science and part art. There is a precise and calculated aspect to the process but at the same time the rules and any possible confines can be hazy, presenting grounds for personal interpretation and the creation of a truly unique beer.

[Buying Options](#) . \$110 \$100 \* from Amazon. You save \$10 (9%) \$100 from Northern Brewer \*At the time of publishing, the price was \$110. The Brew Share Enjoy kit has everything you need to begin brewing, including a 5-gallon kettle.

[Introduction - How to Brew](#)

Where one book would recommend using baking yeast and covering the fermenting beer with a towel, a later book would insist on brewing yeast and perhaps an airlock. So, I felt that another point of view, laying out the hows and whys of the brewing processes, might help more new brewers get a better start.

#### **Should you use a Secondary for Beer Brewing? | Home**

...

The main problem with using a secondary fermentation in home brewing is that you take a risk every time you transfer the beer. The first, and largest risk is oxidation. Siphoning your beer involves splashing and exposing your beer to oxygen. Even a very small amount of oxygen can spoil the long term stability of your beer.
